Hi Phil:

Please see attached the draft LRC package from Energy for the Net Metering enhancements. Let me know if you are supportive of the item proceeding to the April 16 LRC and of the TAED exemption request to have the regulations come into effect October 1, 2018. This is needed to allow more time for implementation but to also meet commitments to have the program enhancements in place during 2018.

I will let you know if there is anything else to flag coming out of my analysis.

Cheers

Hi Jeet:

Following up with you in Martin and Hillary's absence. Are you in a position to provide an update on when we might expect the draft package? It is considerably late at this point and a reminder that finals are due Wednesday next week. Happy to chat.

Thanks

Hi Martin:

Just a quick reminder that the ADM approved draft materials for the net metering package are due EOD today. April 16th is shaping up to be another busy meeting, so early drafts would be an asset.

Happy to chat.

Thanks!
