Hi Hillary,

As discussed, attached is a tracked changes version of the draft LTEP minute that reflects CO feedback on the version included in the deck from last evening. In general we have made some structural changes for clarity, removed some detail that is not needed in the minute (in our view) and added in details on the path (e.g., report backs to TB, CAB, LRC).

I know folks are focused on the deck for tomorrow's discussion right now so I would propose we regroup on this tomorrow once you and they have had a chance to digest the attached. I think walking through it together would be beneficial.

Happy to discuss. Will also review the deck with a view to structure / order / condensing per Atel's comment and get back to you asap tomorrow.

Thanks,
Karen
