Yes, agree, especially with the regs coming forward in the next month.

I find it helpful as we will be expected to know where they are at and if there are any risks to meeting timelines and with energy it is hard to get a line of sight so with these meetings at least we are in the room?

Hi there

Deputy Davidson thought going forward either him or Martha/Karen attend every three weeks or so. He wants us in the implementation stage to take a step back.

Happy to discuss if you think there is merit in Tim attending weekly. Thanks

Subject: FHP Implementation meetings

Hi Boafoa:

Wondering if you know if the Fair Hydro Plan Implementation meetings are still ongoing, and if there will be one this Thursday? If so, can you send me the details? I had been attending these meetings before the leg was tabled and would like to continue given our future touch points on the reg submissions we are expecting in June.

Thanks,
