Rebecca, do you have a final version of this note that I can share with the ministry ? The comms branch needed it for reference – please and thanks.
Stephanie

Thanks Rebecca, I'd like to make a change to the first bullet, which I've cleared with the ministry. I've pasted the updated section here below. Thanks a lot,
Stephanie

How will the changes be communicated? [TBC by CO Comms]

- The ministry does not plan to proactively communicate on the regulatory amendments.
- Ministry has an extensive broader OFHP communications strategy in

place.

- Reactive materials will include updated Q&As, key messages and issues management plan.
- Will continue to monitor and track:
 - media reactions and editorials
 - incoming correspondence
 - response by opposition MPPs

Hi Stephanie,

Please find attached an updated draft LRC BN that includes a communications approach based on ENERGY's latest draft materials. Hoping you can kindly please advise if you have any comments by tomorrow morning.

Many thanks and apologies for the tight timelines.

Best,
Rebecca

Hi Stephanie,

We're aiming to have a final note ready by tomorrow morning so it can be included when ECO publishes materials for LRC. It would be great if you could send feedback before then so it can be incorporated.

Thanks again for your help!

Best,
Rebecca

Hi Rebecca,

I'm working on it. When is the note due exactly? I'm trying to get you something today but the ministry is very wrapped up in getting LTEP out the door. I know you've been more than patient. Let me know your hard deadline and I will get back to you.

Thanks,
Stephanie

Hi Stephanie,

Just touching base with you on this in Sarah's absence. ENERGY's proposed regulatory amendments to support Fair Hydro Plan implementation are now tracking to LRC on October 30. Wondering if you have you heard back from ENERGY on communications. Would it be possible to kindly provide comments on the note today?

Happy to discuss any questions.

Many thanks,
Rebecca

Subject: Fact Check: Draft LRC CBN Fair Hydro Plan Implementation

Hi Sarah,

ENERGY is tracking Direct to Cabinet on Oct 18 (TBC) with proposed regulatory amendments to support Ontario Fair Hydro Plan implementation.

Please find attached a draft LRC CBN for your review / additions.

Please note that the CBN is based on draft ministry materials and is being sent to ENERGY for review concurrently. As such, there are questions and placeholders for ENERGY to address throughout the note.

Hoping you can kindly provide your comments by end of day today. Apologies for the short turn around.

Thank you,
Rebecca
