Hi Rebecca,

Thanks for the quick turnaround on this. I made a few tweak to the risk section and a few other spots, nothing major. I am going to need you to explain the timing of the clean energy bit appearing on bills – I don't quite follow it but I am tired! Am I right in thinking that OPCD wants to see something else before they give their final weigh in on the regs?

Thanks,

Karen

Hi Karen,

Please find attached an updated version of the LRC BN on ENERGY's proposed regulatory amendments to support Fair Hydro Plan Implementation. It incorporates comments from OPCD and CO comms. There is some outstanding language (highlighted) that we are waiting for ENERGY to provide feedback on.

Happy to make any changes to the risk section or other sections of the note.

Thank you,
Rebecca

Hi Karen,

Please find attached for your review an updated LRC BN on ENERGY's proposed regulatory amendments to support Fair Hydro Plan Implementation. The note incorporates comments from ENERGY, MAG, TBS and OFA. I understand that OPCD

is planning to provide comments tomorrow morning, which I can incorporate once we receive them. I am also sending this version to CO comms to review the comms section, which we just received from ENERGY.

For your reference, I'm also attaching:

- Latest draft of the amending regulation
- Latest draft of ENERGY's Approval Form
- Latest draft of the PRIA
- ENERGY's comments on the BN

Happy to make any changes / follow-up on any questions.

Thank you,
Rebecca
