Hi Lucia:

Apologies for the delay. Waiting for fact check from MAG. Attached is the draft that we sent to them that had been fact checked by Energy. I will follow up again to see where MAG is at and hope to provide a final soon.

Thanks

Hi Tim,

Can you please give me an ETA on the updated note? It would be helpful if I could give to Anna before the Chair's briefing today just as a study piece.

Lucia

Importance: High

Hi Tim,

Attached is the updated LRC-CBN. Can you please review to ensure it is the latest version, and:

- Add any information on the new issue flagged at today's meeting (Please note that since our last chat, I thought about it more, and don't think we need to add any message at the top on the changes to your note. Since this is the first time full Cabinet will be seeing this note, amendments coming out of LRC are assumed.)

- Fact check the Notes from Committee Section.

If you could please get back to me by tomorrow AM, that would be great. Thanks!

Lucia Frndova

Subject: Energy Regs

I won't be in tomorrow so Anna wil be managing cabinet elements. But to get us all started, want to confirm a couple of things:
- Lucia is updating lrc cbn for report into cabinet. We will green folder it and will NOT distribute ahead of time
- We haven't yet settled how to handle the report to Cabinet. Given what I've heard I think the ministers of energy and the ag need to provide advice to cabinet. I'm not sure w actually need much from a spokesperson for lrc other than indicating that the cabinet at lrc wanted to ensure that cabinet members are aware of the risk. We could have the chair of cabinet provide that msg then go to min energy and mag. So we probably don't need to tag an lrc minister for the report.
- we are putting on the agenda after the MTCC report in. We should give ten minutes (I said five earlier, up it to ten)
- fazim prep an updated invite to energy for this item. Depending on how things sort out we may want to invite mag for it too.
