Thanks for the heads up, Martin. Could you elaborate on what is problematic with the revised language from MOECC, from Energy's perspective?

Hi Karen,

We have briefed our minister twice on the minute and don't accept this language. We could accept the language that the PO signed off on that you sent earlier. If this is something folks want to push for we would rather have this discussion at Cabinet and our minister will be prepared to speak against it.

Our MO will be reaching out.

Thanks,
Martin

Hi Martin,

MOECC has proposed a further amendment to #3, set out below.

Ministry of Environment and Climate Change (MOECC) and ENERGY, working with partner ministries, report back to Cabinet with updated modelling, including assumptions, outlooks, forecasts to inform policy development in the energy sector, future LTEPs and the achievement of the province's climate change commitments.

Please let us know asap of any concerns with this revised wording.

Thanks,

Karen

Hi Martin,

As discussed, attached is a revised minute that PO has agreed to. This is also with MOECC for their review, in particular minute #3.

Please let us know of any concerns with the language as soon as possible.
