Thanks, if you wouldn't mind providing the draft pink note would be helpful. I'll follow up again tomorrow in the afternoon to see if any additional or revised material is available.

Chris

Not yet. We hope to get a revised deck from them today or tomorrow, as well as their review on our pink note. Happy to share the latter if it would be helpful but with the rather enormous caveat that Energy has not yet fact checked.

Hi Karen – We are starting our policy pre-brief cycle this Wednesday and our colleagues at the OFA will be leading a note on the LTEP item.

Do you have any material that we could share with them?

(I know you shared a deck with us last week with a qualification of not distributing, so I wanted to see if you have anything else that is shareable).

Thanks,
Chris Skubel
