Here's an updated note that tracks in a specific edit from TBS on page 1.

The other edits I made to the cost section where more editorial to respond to a comment from TBS, but I don't think they are major/worth highlighting with underlining.

Please refer to the attached.

Thanks!

Good evening:

Please find attached the draft LRC not for the OFHP Implementation reg package. As discussed, we are still waiting for comments from TBS-OPCD and will advise ASAP if the note can be treated as final. Please publish indicating materials are still draft.
