Subject: OFHP Reg package- Nov 20 LRC
Importance: High

Hi Christine:

Energy is now tracking a last minute set of reg amendments in support of the OFHP implementation to LRC Nov 20th. They had originally thought the regs could wait until Dec 11th but we are told that the credit rating agencies have pushed back and said they need to be in place prior to them completing their analysis.

Final but unsigned package attached. I am starting work on the note now and will try to send later in the day, but turnaround for comments will be very tight. I have shared the package with TBS staff, but I would like to get the materials to OPCD sooner than later in case they have any early comments on the materials that can be incorporated into the note.

Thanks for your help!
