1. IESO responsible for letter of credit and carrying costs associated (500k to \$1m)
 - Do they do this through their operating budget or amend regulation to build it into GA
 - IESO position is that it should go in the market like all the other costs, too risky to put into the operating budget
 - Will include in the package for Monday's LRC (hasn't been drafted??)
2. OPG securitization 4.5%
 - Unclear whether this is a regulatory change or not
 - Energy to look at technicalities of the change
