Efficient Improvements to Ontario Homes Page Number: 6	LDCs to establish an Affordability Fund that will help customers in need to pay their bills. Ontarians in need who do not qualify for existing low-income conservation programs may qualify for financial assistance to undertake energy efficiency improvements that will help reduce their future electricity bills.	on electricity a natural gas <i>Edit submitted</i>	
Subsection: Reducing Electricity Costs for Business Page Number: 7	Reducing Electricity Costs for Businesses The government is continuing to lower electricity costs for businesses to maintain a competitive business environment. Ontario is proposing to further expand the Industrial Conservation Initiative (ICI) program by reducing the eligibility threshold from one megawatt (MW) to 500 kilowatts (kW) for targeted manufacturing and industrial sectors. This proposed change is in addition to the Province's existing actions to reduce electricity costs for businesses, such as providing ongoing support to qualifying large industrial facilities in northern	Mention that 35% applies to small businesses <i>Edit submitted.</i>	

	Ontario and ending the debt retirement charge (DRC) for commercial, industrial and all other electricity users as of April 1, 2018.		
Subsection: Modernizing the Province's Electricity Markets Page Number: 7		<i>This section doesn't say anything...can it be cut?</i>	
Subsection: General Note for page 7 Page Number: 7		Need a section on the Long-Term Energy Plan - It will further drive costs out of system, encourage more conservation and help shift to a low-carbon economy <i>Edit submitted</i>
