Draft Email to Participants in Stakeholder Consultations:

As you know, in response to the funding pressures on plan sponsors due to low long-term interest rates, the Ontario government initiated a review of the current solvency funding framework. The goal of the review was to develop a balanced set of funding reforms that would take into account the interests of pension stakeholders including sponsors, unions, members and retirees.

We would like to thank you for your participation in the consultation process and advise you that the government is moving forward with changes that will help ensure workers' retirement benefits are protected and maintained, while enabling business to grow and be more competitive.
