Hi Chris,

Can you please reach out to the OEFC team for a note? As you'll see from the agenda, electricity/energy prices will be a discussion topic. It would be helpful to have a one pager outlining the supports for Class B and Class A consumers (inclusive of the Fair Hydro Plan, what was introduced in the fall, any commitments we've made around cap and trade support, etc.) The more we can use tables and numbers rather than paragraphs, the better.

In addition, the guest list is below so any high level bullets specific to what we may expect to hear about these stakeholders' concerns would be most appreciated.

The meeting is next Wednesday, but the Minister will be briefed Tuesday afternoon. May I please have the note by first thing Tuesday morning?

Happy to chat if any clarity is required.

Many thanks!
Marianne

Hi Nick and Marianne,

I'm coming back to you now that CME has offered up the topics they'd like to speak to the minister about. Nick, I believe pension solvency is with you and Marianne, Energy issues are the ones you can speak to. Saad has the rest. I'll speak to him when he is in this weekend about coordinating the notes the minister will need for the roundtable.

Best regards,

ERIC DILLANE
