Subject: RE: Revised Energy Language

Hi Kelsey,

I have reviewed the proposed edits, along with Ron Kwan and Scott Nelms. We do not recommend adopting these changes for the following reasons:

- There are several instances where the new language is factually incorrect, requires further fact checking, or would have to be revised/softened to pass ADM sign off.
- The narrative is not consistent with how we feel the section should be communicated; it reads more like a speech.
- There is a logistical challenge in that we would have to invite PO policy, Energy MO and Energy officials to reread and sign off again.

Perhaps some of this language would be more appropriate for any doc comms materials that feature the Fair Hydro Plan.

Happy to chat if you have any questions or concerns.

Cheers,
Marianne
