Comments from the OFA are attached/below.

-
- Suggest a mention of accounting risks in the Fiscal subsection, particularly given the AG's stated position at Committee on this. May want to seek input from OPCD/TBS.
 - Suggest including on page 6, as part of the objectives of the proposed regulations:
 - Details on how the interest on the Trust debt will be managed; and
 - The Clean Energy Adjustment as it relates to repayment from 2027 onwards.
