

This statement is issued on: **August 9, 2017**

For the period of: July 4, 2017 – August 4, 2017

\$144.⁷⁷

How much did I use?

You powered your home with

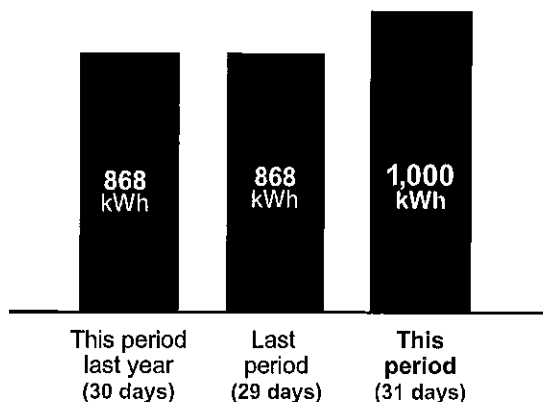

1,000 kWh
of electricity this period

**Aug 28,
2017**

Your usage has **increased by 14%** compared to the same period last year.

Find out more by logging
into **myAccount**
at www.HydroOne.com.

 Ontario's Fair Hydro Plan saved you \$83.24 on your bill. This amount includes the 8% Provincial Rebate.

 The Ontario government is providing you with an 8% rebate, equal to the provincial portion of the HST. Households, farms and small businesses will benefit from this rebate starting January 1, 2017.

 **NEW Paperless Billing** – You can now view, pay and manage your bills online. Save time and effort by signing up at www.HydroOne.com/PaperlessBilling.

What am I paying for?

Balance carried forward	\$0.00
Amount due from your previous period	\$207.42
Amount received - Jul 21/17	-\$207.42
Your adjustments	-\$5.00
Your electricity charges	\$149.77

Total amount you owe by Aug 28/17

\$144.77

Powering 32 North Street

Point of Delivery: 50150150

Residential Medium Density

Electricity.....\$82.16

This is the cost of generating the electricity you used this period. Usage is measured in kilowatt-hours (kWh) and depends on the wattage of devices you use and how long you use them. The Ontario Energy Board (OEB) sets the cost per kWh and the money collected goes directly to the electricity generators.

Delivery.....\$56.03

This is the cost of ensuring you have reliable power when you need it. **Hydro One collects this money** to build, maintain, and operate the electricity infrastructure, which includes power lines, steel towers and wood poles covering 960,000 sq. km. A portion of this cost is fixed and a portion varies depending on the amount of electricity used.

Regulatory Charges.....\$4.45

The Independent Electricity System Operator (IESO) uses this money to manage electricity supply and demand in the province, which is necessary to ensure that there is enough electricity to meet Ontario's needs all the times.

HST (12345-1234-RT1111).....\$18.54

8% Provincial Rebate.....-\$11.41

Total of your electricity charges.....\$149.77

Hydro One - How the System Works

Hydro One's role is to make sure that Ontario's electricity can flow directly to you, our customers, through our system safely and reliably.

Energy Saving Tip

Phantom Power

Electronics use energy even when off. Plug them into power bars with timers or auto-shutoff to lower energy use.
