Hi James,

We are just putting together our collective IESO comments on the draft regulations. We have also heard from OPG last night that the simpler (i.e. non GA) approach works from an accounting perspective. OPG obtained confirmation of this from E&Y. We have also received confirmation of the approach for IESO from KPMG. Both firms will need to see the draft regulations to confirm their views, but it looks like we should pursue the simpler approach.

Regards,
Michael

Confidential/Solicitor & Client Privileged

October 4, 2017

Good day, Michael. We are pleased to attach the updated draft proposals for amendments to O. Reg. 429/04 (Adjustments Re: Section 25.33 of the *Electricity Act, 1998*) and O. Reg. 206/17 (General) made under the *Ontario Fair Hydro Plan Act, 2017*. We appreciated the comments you provided to the Ministry and have taken on those that we felt were supportable by the legislation.

Please note: the draft which is ultimately produced by the office of legislative counsel may vary from the attached due to drafting protocols.

Best,

James
