Hi Glenna,

Sorry for the delay. We've shared the IESO's achievable potential deck with CO for Wednesday's meeting with PO. Attached is the ministry produced product that we shared for that meeting as well.

No concerns with you bringing the below people to the meeting. We'll ensure they have security clearance.

Thanks,
Hillary

Hillary:

Please find attached a revised deck for the May 31 briefing. Would you be able to share the ministry's LTEP deck with us?

The attendees are now the following:

Terry Young
Katherine Sparkes
Evelyn Lundhild
Bashir Bhana
Jordan Penic.

Thank you for your patience.

Regards,

Glenna

Hi Glenna,

Thanks for letting me know. That should be fine. If it's at all possible to get the deck by 11am tomorrow, that would be really helpful.

Thanks!
Hillary

Hillary:

We are going to have to send this tomorrow morning or possibly later tonight.

My apologies.

Ok thanks Glenna. If today isn't possible let me know, and tomorrow morning might be ok.

Thanks,
Hillary

Thanks Glenna.

Following our briefing last night on the IESO's modelling, I think our focus moving forward is going to be more on reducing upward cost pressures. As a result, we want to tell the story around conservation that while there is this additional conservation potential, we're in a good supply mix situation right now and don't need new conservation at the moment. I think some of the framing in this version of the deck might need to be revised (maybe on the highlights and conclusion slides) to reflect this. I think the current goal is to move decisions about additional conservation to the next LTEP instead of the 2017 LTEP.

Could this be reflected in the current version of the deck? Do you think this is doable for end of day today?

Thanks,
Hillary

Hillary:

Please find attached a revised deck for the briefing next Wednesday - the deck name is the same except "final" is now "FINAL" in the name. Thank you for your patience.

Regards,

Glenna

Hi Glenna, sorry for not responding sooner, I was having BlackBerry issues. I did not share the deck. I'll stand down for now.

Thanks,
Hillary

Hillary:

Can you please not share the deck I sent this afternoon? I need to send you an updated version and will do so tomorrow morning. My apologies.

Can you please let me know if this is possible?

Thank you.

Hillary:

Can we bring four people in total - or is that too many?

Yes, I can share the invite today, we were just waiting to ensure that the timing was landed. Now that it is I can share along. When you share up the deck, would you be able to let me know who you guys propose attends from the IESO? We'll need to make sure they have security clearance, and ensure there's space for everyone.

Thanks!
Hillary

Hi Hillary:

Thank you. Will we be sent a meeting invitation?

Hi Glenna,

Yes the meeting with PO is still on the 31. Tomorrow should be ok to share the deck, with it being the long weekend, I forgot we lost a day.

Thanks,
Hillary

Hillary:

Has the PO briefing on May 31 been confirmed? We are still working on our material and it might not be ready until tomorrow. I hope this is all right.

Regards,

Glenna

Subject: LTEP PO Briefing: Conservation

Hi Anthy,

There will probably be a PO briefing on May 31 on conservation, as a part of LTEP. The MO would like to start the briefing with an overview of the achievable potential study. We'll then product an internal product on conservation in the LTEP.

Could you provide a deck for this briefing on May 23? When you share, if you could let me know who would attend from the IESO, that would be great.

Thanks,
Hillary
