Hi folks. See below. The slide that sent on Friday should likely hit these points.

Keeping you looped in. Steen

MO edits to tech deck. Tim, let me know if you can turn these around tomorrow morning. Haven't seen IESO input yet, but it should be coming through Steen this weekend.

Hi Hilary,

Please see comments below from Andrew on the deck. When do we expect input from IESO and can we see a new version tomorrow?

Thanks,
Martin

Good Afternoon:

Suggested edits / considerations :

Slide #7 - final bullet about taking costs out of the system / LTEP is out of place on this slide "Role of OPG" - let's move that to Slide #6, please? (Perhaps separate out the two thoughts about costs and

LTEP launch to deliver 5 bullets ?)

Slide #18 - subject to IESO consideration : would like an introductory bullet about the shift in accounting to better reflect market books and that was done for transparency reasons.

Also, should have a bullet about how this "received a clean audit opinion from KPMG and concurrence from Deloitte".

Are we anticipating a new turn this weekend / Sunday?

Many thanks, in advance.

Hi Andrew,

Attached is an updated deck based on this afternoon's discussion. This version also incorporates comments from TBS. There is also a place holder for IESO input on its slide.

We've sent IESO the slide for feedback and input. The text that is currently on IESO's slide was from TBS.

The QAs will likely come Saturday as folks are working to consolidate input from the OFA and TBS.

Thanks,
Martin
