Hi Dane –

As flagged at the TBSWP planning meeting over the last few weeks. Please find attached our proposed response to the FAO's request for updated pension adjustment estimates over the budget outlook. Our response can be found in the attached.

This is a straightforward data pull which is non-contentious, reflecting exactly what's published in the plan being released tomorrow. We've been asked to provide this within two days of the Budget's release. We're happy to chat with folks about this, but don't think it's necessary given the straightforward nature of the request. Please share and let us know.

P.

Hi Karen -

Here is the proposed pension response for the FAO. I will save in your LINKS and will share with DMO when you're ready. This is a straight pull of the numbers so not much for you to review/opine on really.
