Good question – we'll have a look and see. They may have said it in their fall economic/fiscal update when they first include the asset assumptions as an impact.

Subject: FAO Spring Report

Hi Tim – Page 27 of the above noted report includes the following statement:

The Officer looks to the Auditor General as the provincial authority on the appropriate interpretation and application of accounting standards for the Province.

Do you know if that statement has been included in previous FAO reports or if it's a new statement?
There is not a similar statement in the report on the Fair Hydro Plan, based on the limited search I did.

Thanks,

Cindy Veinot
