Hi Patrick,

We are aware of the issue that Ron raised, that is why we sent the same question back to OFA this morning asking about the table on cumulative costs and savings (see attached) - the table originated from the OFA.

Also, we shared the note last night with the OFA - they provided edits but not to that table. We're happy to take more edits from the OFA.

We will add Karen's minor edit.

Thanks,  
Felix

Hi –

I had another edit come in from Karen, in the table on page 1 – she would like to add “potential” so it shows “Total Potential Fiscal Impact”.

Thanks,

P.

Thanks David.

Note that TBS has not fully aligned the note to the rapidly changing numbers in the Energy deck.

One example is on page 4. The total “savings” (really more “deferred GA cost recovery”) and interest table (relabelled, numbers changed) on page 4 needs to be either revised or dropped, as option 1 has changed materially.

Ron
