Subject: Minister Briefing on Electricity

Hi Hilary and Adam,

Just wanted to give you a heads up that Minister Sandals has asked for a briefing on the rate mitigation file on Tuesday morning. Currently it's just TBS, but I understand our MOs may discuss following tomorrow's implementation group meeting if energy will be asked to attend.

TBS is working on developing a deck that could be used should this meeting occur. Will let you know if I hear any updates on whether they will ask Energy to attend.

Thanks
Sarah
