Awesome, it would be Nadine, Gary, Violetta and Helen G for OPCD

This is a good idea – we're going to get it set up as a standing meeting on Wednesdays.

Who do we need on your side?

Hi Patrick,

There are a lot of moving pieces on the electricity file within OTB. APFR in OPCD has been involved, now ERM is being looped in for the May 1 TB submission that PEMD will lead , and COE is doing analysis.

Do you think it would be useful to have a weekly OTB meeting ahead of the Rate Mitigation meetings that Helen Cindy and Karen attend (e.g., on Tuesdays?)

At the meeting each group could make sure they are all working with the same up to date information, and provide any OTB updates to the ADMs ahead of the rate mitigation meeting.

Happy to discuss if you think a different approach would work to avoid folks working in silos as I know there are already many meetings on calendars.

Let me know your thoughts.

Thanks  
Sarah
