Just confirming 4 (Amortize Conservation Program Costs) and 9 (Dedicate Departure Tax) are the correct issues to look at.

Helen and Nadine,

I need an update on the accounting implications of these items. I think those are items 4 and 9. By the end of today please as these are expected to be raised by the SOC tomorrow. Sarah can confirm the issue numbers in case I got those wrong.

Thanks.

Just fyi – I assume sarah is keeping you up to date on this one to the extent you need to be – it is apparently at Major Projects today – I had done a few very high level points on opcd's behalf just to get us started which went to Nadine as a help to give her something to work with in putting together any comments – havent heard if she has more coming (I did share my "starter points" with felix this morning, to keep team OTB glued together)

Hi,

Here's the latest version of the deck. We tried to incorporate comments from MOF / TBS. This version is with my MO for review but it will likely be the version we will use at Major Projects tomorrow. Keley can share with your EAs.

Serge

Subject: Potential Rate Mitigation

Hi,

Attached is a draft of the rate mitigation deck. This is tracking to major projects on Thursday for a preliminary discussion. As you can see there are a number of initiatives that have fiscal implications so your input and comments would be appreciated. Keley can coordinate with your EAs. I understand that Andrew T. plans to share with PO/your MOs.

Serge
