FYI

A new request has been received from a media outlet. The requester is seeking access as follows:

For the period March 1, 2016 to March 7, 2017, a cost breakdown of all consultant costs associated with Ontario's Fair Hydro Plan (including both amounts paid and amounts outstanding).

We are trying to determine if CO/PO has any records that respond to this request or if the request should be transferred to the Ministry of Energy. As such, it has not yet been assigned to a specific CO/PO program area.

Thanks,

Jamie Forrest
