Contents

- Through PRRT presentations, ministries provided Scalable Initiatives that could be incorporated into the 2017 Document.
- **Part 1** provides a brief recap of what the government has done up until now, including 2017-18 PRRT approvals-in-principle.
- **Part 2** provides a summary of the Scalable Initiatives proposed by ministries and an illustrative example of what could be funded within a specific envelope.

DOCUMENT 2017

The government continues to implement its plan to create jobs and grow the economy in an inclusive way that benefits everyone. The government will balance the budget by investing in its people and communities, creating opportunities and making life more affordable

RESTORING BALANCE: ONTARIO'S ECONOMIC AND FISCAL STRENGTH

Ontario's plan to create jobs and grow the economy is working. The plan has strengthened the Ontario's economy and restored the Province's finances to balance. The government has achieved this by making investments in its people, communities and public services that Ontarians rely on. The government has beaten its deficit targets every year over the past [8] years.

MAKING ONTARIO A MORE AFFORDABLE PLACE TO LIVE

Ontario is taking a balanced approach to make life more affordable for families and businesses now and at the same time build for the kind of future families need. The government is investing in priorities that help people in their everyday lives. This includes helping with people's daily costs and monthly bills, improving convenience and choice and reassuring people that their child or aging parents will receive the best possible care.

INCLUSIVE GROWTH: INVESTING IN TODAY'S JOBS & TOMORROW'S ECONOMY

TODAY'S JOBS

As Ontario's economy grows, everyone should be able to benefit from and contribute to inclusive growth. The province is harnessing this growth in the economy to create more opportunity and security in the life of every family.

TOMORROW'S ECONOMY

Ontario is preparing its workforce for the economy of tomorrow by building a highly skilled workforce for technology and knowledge-based jobs. The government is also creating a more innovation-driven economy, helping firms scale up into global leaders and modernizing regulations to lower the cost of doing business.

BUILDING STRONGER COMMUNITIES

HEALTH

Ontario continues to make improvements to the health system to deliver high-quality health care that puts patients and their families first. Ontario's plan is providing faster access to the right care, better home and community care, the information patients need to stay healthy and a health care system that's sustainable for generations to come.

EDUCATION

Ontario's strength has always been its people. The government is making investments that help create barrier-free access to education for everyone. These investments will prepare students to succeed now and for the economy of the future.

TRANSPORTATION

The government continues to invest in reliable transportation infrastructure to help move people and goods to support a competitive economy. The Province is building stronger public transit systems that will offer more travel options for commuters and families.

SOCIAL SERVICES

All Ontarians should have the opportunity to realize their full potential and participate equally in society. The government is working to create public services that all Ontarians can count on, everyday.

JUSTICE

Ontario's criminal justice system must work to protect the interests of all people — victims, the public and the accused — while keeping communities safe. The government continues to work on improving the criminal justice system to make it faster and fairer.

PARTNERSHIPS

Ontario believes that a collaborative approach to federalism is the best way to achieve lasting solutions. Ontario continues to work with the federal government and other partners such as municipalities to build Ontario up and ensure a bright future for its residents.

Part 1: RECAP

A brief recap of recent and current government investments (commitments already made in and since the 2016 Budget), including 2017-18 PRRT approvals-in-principle.
