Dear Steve,

I hope you are well.

Despite the many competing claims on your time, there may be more in my new report that is useful to you than may have been brought to your attention.

For a quick look, here are the slides from today's webinar. In the report, <https://na01.safelinks.protection.outlook.com/?url=https%3A%2F%2Feco.on.ca%2Freports%2F2018-making-connections%2F&data=02%7C01%7Csteve.orsini%40ontario.ca%7C3f73c498b21e4b63f20f08d5a4a5dd32%7Ccddc1229ac2a4b97b78a0e5cacb5865c%7C0%7C0%7C636595955174147279&sdata=UkbuQQ8C%2FvULxA6lePZjkEbOmoqwn7JjfRAZ9RJRSQ%3D&reserved=0>, you may also want to look at

- p 61 hidden role of renewables
- p 102 whether Ontario loses money exporting power
- p 128- 129, (non) impact of sale of Hydro One on electricity rates
- p. 135 to 139 procurement of renewables
- p. 178 (all of Q 12) on the health benefits of the coal closure, and p. 195 on the reasons to document those benefits
- p. 232 on what it would take to meet the Climate Act GHG limits, and
- p. 279 on why Market Renewal may fail to keep Ontario electricity low-carbon

We'll send over a hard copy for ease of reference.

Please let me know if you have any questions.

Best wishes

Dianne

Dianne Saxe
Environmental Commissioner of Ontario
