Subject: Fiscal Placemat

Please find attached a copy of the updated fiscal placemat that will be used in a meeting with the PO today with our respective MO's.

Changes from previous version (what some of you saw yesterday) include:

- Added in the high income surtax range of potential revenue – its listed on the far left, under the purple table. We don't build anything in as part of that starting point outlook. You can see that its also listed as a tool on the far right. The tool is not yet built in as part of the balanced scenario.
- We've changed, edited, and updated a few of the labels in the various tables – all cosmetic changes, nothing material or fiscal. Just making ensure everything is consistent across the placemat.

Please note this placemat contains sensitive information on potential tax changes and circulation should be limited accordingly.
