Review please - also, what subject line?

Good afternoon Members and staff,

This afternoon, ministry officials at Treasury Board and Finance held a technical briefing about the release of the 2015-16 Annual Report and unaudited Consolidated Financial Statements. This was followed by a media availability with Minister Sandals and Minister Sousa.

Every year the Public Accounts are released as part of the government's commitment to openness and transparency. This year, public servants and the Auditor have been engaged in discussions regarding the treatment of pension assets based on a new interpretation of public sector accounting standards taken by the Auditor.

Unfortunately, at this time, the Auditor has not provided an audit opinion. This is why the government is releasing these unaudited financial statements to ensure openness and transparency.

We felt it was important for there to be one set of numbers with respect to the province's financial position.

We will be engaging with experts to support a full review on the basis and nature of the differences.

Please find attached:

- Backgrounder
- Minister Sandals' statement
- Minister Sousa's statement

Below our the key messages:

If you have any questions, please let me know.

Thanks,  
Ben
