Oh boy. Yes, many consultations.

We are actually working to develop a list of all of them over taking place the next 6 months.

Most importantly, on Monday we launched the consultations for the next Long Term Energy Plan.

The deck I attached has details on that and also on the LTEP more generally.

Maybe let's chat about this next Thursday? Did we land a time yet?

Hi Matt,

Just wondering if you Ministry is planning on doing any specific consultations in the next 20 months?
Happy to call and chat about this too.

Thanks,
Christine
