Subject: BI and OESP subs

Hey,

Just wanted to check in and share the two TB subs we have tracking for July 25. Sorry, there was last minute version control issues. Attached is the BI sub coming your way. ENE keep making small tweaks to the OESP sub but attached is the most recent copy I have.

I've been told that early copies of both of these have been shared with your officials.

On the BI sub, you'll see that we have only requested short term temporary FTE staff to help with the recruitment and onboarding in Lindsay. This is the absolute minimum we could do in order to get it off the ground and again, wasn't asked for initially because our last cab sub didn't include a third site.

As always, happy to chat anything through with you. I'm around tomorrow if you have any questions.

Cheers,

Julia Drydyk
