Hello Members,

Today, Treasury Board Secretariat released the 2015-16 Annual Report and Consolidated Financial Statements.

This is a major accountability document. It presents the unaudited financial statements of the Province, provides financial highlights of the past fiscal year and reports on performance against the goals set out in the 2015 Budget.

To continue to meet our commitment to openness and transparency, this year we are making more of this important financial information available in user-friendly, visual and interactive online data visualizations and open data sets. These tools will help to make the information contained in the Annual Report and Consolidated Financial Statements easier to access, understand and use.

Sincerely,

Liz Sandals

President of the Treasury Board
