**Subject:** Draft op-ed

Dear Serge, I hope you had a good long weekend. I am writing to ask if you might have any feedback or comments on a possible op-ed piece I have drafted on lowering hydro bills by smoothing contracted generation costs (see attached). This would complement the Ivey Policy Brief on generation costs, and could be submitted to one of the major newspapers for publication before or after. Your thoughts on the merits of an op-ed, timing, and content would be welcome.

Best wishes,  
Guy
