Good Morning:

Enclosed are samples of correspondence that are being dispatched first thing this morning.

Minister Thibeault is also going to be making a raft of media calls, mostly through Northern Ontario - where the issue might have particular resonance.

Significantly, of note, Minister will highlight the leadership of those utilities, like Hydro One and gently shame the laggards. That's a difficult communications dance / needle to thread, but we have been disappointed with the partisan chirping from Opposition regarding the substance of Legislation before the house.

At the same time, my feeling is that LDCs share a degree of responsibility here. Hydro One has taken a more evolved approach, while others continue to resist and even oppose the policy of no winter disconnection.

Appreciate that folks are going to be preoccupied up at call centre today, so will share any media round-up as it comes about.

Please let me know if you should have any questions or concerns; or require any clarity as to this correspondence.
