Hi.

Want to make sure that this afternoon's discussion is as productive as possible, but wondering if your team has had the chance to discuss with Minister Murray coming out of the 22 October "family meeting" that we had with all Ministry partners about this pillar of "proceeds recycling".

Wondering if it might make sense to spend a bit of time introducing this hybrid option and discussing it with the team this afternoon?

Again - not about making a decision, but about introducing the concepts that we are churning through.

Thoughts?

Many thanks, in advance.

Andrew

Good Afternoon:

Quick reminder about next meeting on **Monday 7 November | 9.30-11am – 77 Grenville; 7th Floor – Energy Boardroom** .

To help us gear up for this discussion, please find enclosed a draft deck – including a new “Hybrid – Option #4” per last meeting’s exciting group dialogue.

Many thanks owed to officials at each of your Ministries for feeding into this next turn.

Good Morning:

With thanks to all for participating last week, and for the useful feedback and follow up that has already started to flow back to our Ministry via each of your teams.

Many have already inquired about the need to gather again to review this item and bring forward the alternative / hybrid options that were discussed last week.

To that end, please "hold this date" : Monday 7 November | 9.30-11am - held once more at 77 Grenville; 7th Floor - Energy Boardroom.

We've opted to book a 90 min session owing to the fact that we did go significantly over last time, and while we hope to end early, perhaps best from everyone's calendar management to take this time and set it aside.

Between now and then, we aim to share updated products for consideration and review.

Many thanks, in advance.

Andrew

Good Afternoon:

This was shared yesterday via DMO's, but in case you didn't receive.

Many thanks, in advance.

Good Afternoon:

Your DM offices should all be in the process of receiving a calendar invite from Energy Deputy Minister's team to gather on this Friday (see below) for a review / recap of how Energy will be proposing to fulfil the Budget 2016 / SFT approach to ensure that – broadly – “no impact to industrial electricity rates” with implementation of cap & trade regime.

Analysis is still ongoing, but we should have a deck to circulate and stimulate discussion to share by the early part of mid-week. And then anticipate that Friday would truly be a “thinking caps” “working meeting” where we could collectively hash this out and discuss path forward.

You are invited because as some point in the past, either you, your Minister (or in the case of MNRF, former Ministers') intervened to ensure that the 2016 Budget commitment was upheld and, in fact, expanded, as it pertains to some categories of large industrial customers.

Anyway, please hold this date / timeslot accordingly, but also if you could RSVP and let Carys Baker (cc'd) carys.baker@ontario.ca know whom would be attending from your shop would be super.

Many thanks, in advance.
