Attachments: Rate mitigation - NR CLEAN to DMO LT.docx (58.5 kB)

I know I'm not actually DComm, but I thought I would have a once over anyway. Do with it as you will.

Added comments to the NR.

Other general comments:

GA doc - why is Toronto the example LDC? Or are we doing the previously mentioned 3 (HydrOne, TOHydro, Alectra).

Social Programs doc - point #3 briefly mentions moving to taxbase. Are we avoiding talking about the fiscal impact? Either way, obviously we'll have to ready for the q.

Let me know if there is anything I can help with in Dan's absence.

Landon.
