Good Morning:

Would like to seek your advice as to how you'd care to move forward. The version prior to these, whatever came that last week of June, I took with me to Florida and have pen edits all over.

Not sure what other evolution have occurred since.

To avoid "version control" issues, suggest we consolidate for next round of MO edits to DMO.

Might make some sense for policy to review my comments, but whatever process you three have established is fine by me.

Just let me know whom to share this binder with and please accept my apologies for any sand or tequila splashes that may appear.

Many thanks, in advance.

Andrew Teliszewsky

Subject: Revised LTEP Chapters

Hi Andrew/James,

Attached are 7 of the 8 revised LTEP chapters. These reflect edits received from MO, as well as other updates we have made, including some structural changes to the chapters. Chapter 5 will follow tomorrow.

Our goal is to get another version of the chapters to John McGrath for the weekend to turn another draft. If we could get MO edits by end of day Wednesday so we can incorporate those into the version we share with John, that would be great.

Let us know if you have any questions.

Thanks,
Hillary
