Hi Andrew,

Would you be able to get the KMs out to me asap? It is my last day today, and I would like to try to help him write a response to this person today.

Thanks!

Good Morning:

Fair Hydro Plan covers this off; but a good reminder for us too send out a Caucus Blast in this regard.

As utilities - H1 or Ottawa Hydro or Thunder Bay - come in with applications, anything above the % set by fair hydro reduction is covered through the GA smoothing.

Important principle since you don't want to end up at the end of the regime with just a massive amount of deferred capital; or unreliable infrastructure as a result of an artificial cost cap.

Thanks for sharing - will get some KM out and hope you are keeping well.

Andrew

Hi Yasir .. got this from Hydro One. All the good work Kathleen Wynne is doing to lower people's hydro bills .. and they pick now to do this! It's like one step forward, two steps back.....
