Hi Matt. You're right. Outlined below is the eligibility definition for GA refinancing.

Apologies for the confusion. Cheers, Steen

Q. Who is eligible for Global Adjustment refinancing under Ontario's Fair Hydro Program?

All electricity consumers eligible for the Regulated Price Plan (RPP) would be eligible for GA refinancing. This includes residential consumers, most small businesses and farms. Consumers who have opted out of the RPP to sign contracts with electricity retailers or become wholesale consumers would be eligible; however, their savings could be more or less than 25% depending on their consumption, local distribution company and cost of retail contract.
