Good Afternoon:

Owing to these upcoming CO/PO meetings, can we please just cancel the "policy tracking" meeting for this coming Thursday, perhaps?

Next one appears already set for 4 August. Between now and then, everything is LTEP anyway, so should be fine, right?

Let me know if Martin insists on proceeding with the matrix meeting this week and I can try to talk him out of it.

Good Afternoon:

Given Bevan & Gillian away, I was advised to get timeslots from Mike Jancik's office for next round LTEP briefings.

To that end, have confirmed :

Thursday 20 July 11.30-1pm | Review of Long Term Energy Plan Final Cabinet Submission (Policy Document) = the Cab Sub tracking to 26 July Cabinet.

- *As discussed, we are taking a major crack at turning the 130+page document into a much shorter deck. Each of ENE three divisions have been given a constraint target for their slides. Somewhat appropriately, we are aiming to take 25% off (on average).*

Wednesday 2 August 1.30-2.30pm | Review of next round LTEP / OFHP Model Assumptions (Pricing Outlooks).

- *This would be a report back based on this past Thursday's 12.30-pm multicornerers regarding the reconciliation of OFHP with LTEP.*
- *Note that delay in report back on this item has been established to ensure that all possible resources for modeling needs are dedicated to preparing for the Hydro Quebec briefing next*

Friday, given the timeline sensitivity requested articulated by PO yesterday on that file. This also gives ENE time to focus on the LTEP Cabinet Submission on 26 July and come back with a stronger options item for the week after Cabinet.

Asking CO to please find the location that suits and dispatch the outlook calendar invites, please.

Many thanks, in advance.

Subject: Next Round Hydro Quebec

Good Afternoon:

Have confirmed next round Hydro Quebec briefing in Bevan's calendar works for 3-4pm on Friday 21 July (one week from right now).

IESO has advised that this is "pushing them" but will need to be made to work given senior PO calendar.

Asking CO to please find the location that suits and dispatch the outlook calendar invites, please.

Many thanks, in advance.
