Subject: RE: SP - Minister Lead-off - Price Mitigation (2)

I'll incorporate these edits and get it back to you shortly, as well as getting a printed version ready.

PA's remarks are attached. Ministry said they're still under the last stages of review with the DMO.

I did a scan of supportive quotes for the debate KMs for Members, and found a couple. Only a couple though so far. I'll keep hunting and update the list as I find more. Here are the ones I included with the KMs for reference:

Supportive Quotes:

"We are happy about this. This is the right thing to do, particularly so that the medium-sized enterprises can remain competitive relative to our largest competitor, which is just across the lake."
– Alan Odette, CEO of the Ontario Chamber of Commerce, BNN Interview

"The announcement today is very significant for residents, small industry, but the most important group that could benefit would be medium sized companies, like manufacturing."
– Alan Odette, CEO of the Ontario Chamber of Commerce, BNN Interview

"I would like to thank the Minister for listening to the concerns of rural Ontario's rural residents, who are struggling to pay their electrical bills," she said. "As we head into the cold winter months, the provincial government's new efforts will go a long way in helping Ontarians keep their lights on, especially in Bruce and Grey counties."
– Francesca Dobbryn, United Way of Bruce-Grey executive Director, Owen Sound Sun Times

Good Afternoon:

I like.

Consider adding:

- fact check, but I'm almost certain that Bill 135 from last session also had the effect of

restricting the window period within which LDC's can do disconnects.

- small edit, in the paragraph to talk about customers in the north, it says "here" in the north, should remove the "here"

- at the front of the remarks, you need to state something about splitting the time with "my superb Parliamentary Assistant, the Member from Mississauga Streetsville" and also add this to the conclusion, to kick it over to Delaney

- in the paragraph that references the 45\$ for rural, you should also find a way to add in the reference to 20%

let's get printed and nice into a binder to give Minister when he's back this afternoon. Make sure no flow over to other page; like the thing Bob used to fuss about. Complete sentences, etc.

Andrew

PS: what's up with PA remarks?

PPS: from the media scan from this weekend and since, can we try to get all supportive quotes pulled together please in one spot?

Andrew

Here are the draft remarks for the Minister's lead-off speech tomorrow. Dan took a first cut at edits, and I have cleaned the remarks up further.
