Good Afternoon:

Just wondering if anyone has any feedback or comments on these products, perhaps?

A mark-up of the detailed CO pink-note is also making the rounds, but does require significant input from MoF / OFA / OEFC as well as TBS / OPCD.

ENE meeting with external accounting experts tomorrow early afternoon, so will probably have updates to the core questions of accounting risk mitigation by late in the day Tuesday. Outlier will be MAG / Binnie constitutional law opinion, also due tomorrow.

We've also taken a run at the main NR and companion BK's. Goal is to have those circulated to this team as well before end of day tomorrow.

Please advise if you should have any other questions or concerns?

Atel/

the weekend which to proceed with, they are not mutually exclusive and in fact a part of me sees merit in doing all three. Would please ask folks to review and comment this weekend.

Energy Officials are currently shopping this around TBS and MoF counterparts and at time of this writing, am not sure if we have yet had feedback from partner Ministries. Included in that is ask for OFA and OPCD review, obviously, of the Minute. ALI / MIKE : CAN you please ask your officials to review and respond this weekend to their Energy counterparts?

SoC had asked for a list of comments from Executive Council and we are now compiling a more detailed list and reply, but this is first cut. Was a bit confused as to what this was ultimately for, we discussed a bit in passing at the tail end of FPC about potentially including this as some kind of attachment / appendix to the next Cabinet Submission.
