He's still pushing to have the announcement pushed by a day or two. It wouldn't work on our end looking at the schedule.

Can you clarify for me who is leading the event, my understanding was that the affordability fund was run by a board made of up various stakeholders like the United Way and Hydro One.

Thanks,

Which third party is leading the event? Hydro One?

I think we should ask them whether the date can be moved back by a day or two.

Hi Brian,

Thanks for your response. The affordability fund is a third party announcement so we are concerned they will just do the announcement without us. It's not a strict "government" event because of the way that we did the transfer payment arrangement with the group.

Let me know if you still feel we should not proceed, just concerned we would miss out on being part of such a positive announcement for energy.

Thanks,

Hey,

Thanks for the heads up.

Oct. 23 is problematic. We already have a few announcements tracking, including something provincewide in Hamilton. The 24th and 25th are both open and would be preferable for the affordability fund announcement.

Let me know if either can work,

Subject: ENERGY proposed dates for rollout

Hi Bryan,

As discussed in some cases, we're looking to land the following events, including a heads up regarding an adjustment to this Thursday's GPR visit:

Change to this Thursday's ICI announcement in Glengarry—Prescott—Russell to a third party event with MPP Crack, H1 and St. Albert Cheese Co-op at 2 p.m. H1 is drafting up a matte article to highlight some of the work they've undertaken with the St. Albert that will be shared with local media.

Affordability Fund announcement in Hamilton (Hamilton—Mountain, on the border of Hamilton Centre) on Monday, October 23 around 1:30 or 2 p.m. at the Neighbour to Neighbour Centre. This organization has been participating in the development of the program. Invite will be extended to MPP McMeekin and

We'll engage with the RA/SASI. We're working with H1 to get exact program details and our ministry is drafting products, including MPP template MA/NR.

Thursday, Oct. 26 tentative launch of the 2017 LTEP. Let us know once you have clarity re: the approved launch date.

Third party event with Festival Hydro and Powin Energy in Stratford (Perth—Wellington) on Friday November 3, timing TBC – they'll be commissioning the largest battery storage project in Canada at nine megawatts. We'll engage with the RA/SASI.

Please advise if you have any questions and/or concerns.

Thank you,

James
