Good Morning:

A bit of a follow up request, specific to ICI, if I could impose:

Looking for information into the other new-entrants to the ICI regime in your service territory now. Specifically "manufacturing" or "job creating" sectors.

Minister Thibeault continues his tour to highlight the various aspects of the Ontario Fair Hydro Plan and today will visit an auto-parts / tooling firm in Scarborough that is newly eligible (this July) given last September's regulatory announcement to reduce threshold from 3MW to 1MW for eligibility. Next week, he is in Brampton at a construction products (brick factory) that is in the same boat.

To that end, wondering if Hydro Ottawa has seen many folks put their hands up for ICI participation and if we could perhaps see a list, then work together for a potential announcement to highlight these successes?

Many thanks, in advance.

Andrew:

Apologies for the delay in responding. Was off with the kids for a couple of days.

At present, we have two Ottawa Hospital Campus sites participating in the ICI program as Class A facilities - CHEO and the Ottawa Campus of the Civic Hospital. These two sites have qualified for over \$231,000 in CDM incentives for multiple projects since 2012.

In terms of savings, CHEO has saved about \$3M by electing to be a Class A facility and the Civic Campus has saved approximately \$1.3M to date as a result of the ICI program.

Under the new ICI threshold, we would expect another five hospitals to become eligible - including the Montfort, Royal Ottawa, Queensway Carleton, Riverside and possibly the Bruyere

Notice: External Email

Good Morning:

Wondering if you have insight into ICI eligible health care institutions, by chance?

- Looking for who they are in your service territory?
- What they did post obtaining Class A status (ie. Programs)?
- What their bottom line bill impact was in terms of savings\$?
- If new gang coming in b/c of lowering to 1MW; then whom and how many newly eligible?

Hope you are keeping well, otherwise.

Take care & chat soon -
