We have handled many oppo days with your PA taking the lead before...would be fine from a house perspective. I defer to PO on an optics one.

Thanks Sinead!

Just flagging that our Minister is absent that day. Not a big issue right?

Subject: Notice: Opposition Day ENERGY- Next Tuesday

2. Mr. Brown — Whereas, the Auditor General revealed that the government's Fair Hydro Plan could cost Ontarians up to \$4 billion more than necessary;

Whereas, the government passed legislation to make their own accounting rules that serve to dilute the impact of their financial decisions;

Whereas, the government's intention in creating the accounting and financing design to handle the costs of the electricity rate reduction was to avoid affecting its fiscal plan;

Whereas, the government should have recorded the true financial impact of the Fair Hydro Plan's electricity rate reduction on the Province's budgets and consolidated financial statements;

Whereas, the government should have used a financing structure to fund the rate reduction that is least costly for Ontarians;

Therefore, the Legislative Assembly of Ontario calls on the Liberal government to issue an apology to the Auditor General and the people of Ontario.

Addressed to the Premier. To be debated October 24, 2017.
