Subject: Oppose - Hydro One's application to the Ontario Energy Board (OEB) for a distribution rate increase.

I will take this opportunity to challenge Hydro One's application at the OEB. This is not what I understood to be part of the Liberal Government's Fair Hydro Act.

Not only does Hydro One's application request a distribution rate increase, but they are also applying to have the service charges on disconnection/reconnections, removal of load limiters, account collections and access to their poles all increased.

The application goes on further to say that these increases would be added to our bill before any rebates from the Fair Hydro Act, 2017 are implemented. I will recall, Premier Wynne promised my electricity rate relief with her government's Fair Hydro Act. What the Premier didn't bother to tell anyone including me was that Hydro One would still be able to apply for rate increases despite this new law and that this government's energy policies would continue to add burden to our already expensive electricity system.

So much for electricity rate relief!

I personally am so very sick and tired of the Premier and the Liberals of their duplicitous electricity shell-game and empty promises.

This should not be approved.

I will further Submit a a Letter of Comment.
