To all, Hope you are enjoying the long weekend.

Congratulations are in order to all of the Class B ratepayers in the province for having reduced consumption in July of the current year compared to July 2016. You consumed 15.6% less power! Very impressive eh, however, it will cost you.

According to the IESO the increased costs had to do with the "variance" account that somehow accumulated since the May 1st price adjustment related to the "Fair Hydro Plan" kicked off.
