Dear Minister,

These very recent Hydro One proposed rate increases, as I understand, will be added to our bill before any rebates from the Fair Hydro Act, 2017 are implemented. We were promised electricity rate relief with your government's Fair Hydro Act. But Hydro One it appears can still apply for rate increases with impunity despite your new law.

Please use your authority to stop this insanity....rein in Hydro One. We simply can't take it any more.!

Best regards
